SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name	: Shell Mysella S6 N 40
Product code	: 001H0236

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub- stance/Mixture	: Engine oil.
Uses advised against	: This product must not be used in applications other than those listed in Section 1 without first seeking the advice of the sup- plier.

1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier	 Shell Italia Oil Products SRL Via Vittor Pisani 16 I-20124 Milano MI
Telephone	: (+39) 0200695000
Telefax	: (+39) 022484260
Contact for Safety Data Sheet	: If you have any enquiries about the content of this SDS please email lubricantSDS@shell.com

1.4 Emergency telephone number

: SH	IELL: (+39 02 3800.4461/2 (available 24h a day)

			Storage: No precau	itionary phrases.
			Disposal: No precau	itionary phrases.
Safe	ty data sheet available	on r	equest.	
Sensitising components		: Contains calcium Contains calcium May produce an	salicylate.	

2.3 Other hazards

This mixture does not contain any REACH registered substances that are assessed to be a PBT or a vPvB.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Prolonged or repeated skin contact without proper cleaning can clog the pores of the skin resulting in disorders such as oil acne/folliculitis. Used oil may contain harmful impurities. Not classified as flammable but will burn.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Chemical nature

: Highly refined mineral oils and additives.

According to EC No 1907/2006 as amended as at the date of this SDS

Shell Mysella S6 N 40

Version	Revision Date:	SDS Number:	Date of last issue: 21.09.2022
1.5	05.07.2023	800010032864	Print Date 06.07.2023

The highly refined mineral oil contains <3% (w/w) DMSOextract, according to IP346. Classification based on DMSO extract content < 3% (Regulation (EC) 1272/2008, Annex VI, Part 3, Note L).

Components

Chemical name	CAS-No.	Classification	Concentration
	EC-No.		(% w/w)
	Index-No.		
	Registration number		
Alkylated phenol ester	125643-61-0	Aquatic Chronic 4;	1 - 3

	607-530-00-7		
Phenol, dodecyl-, sulfurized, cal-	68855-45-8	Aquatic Chronic 4;	1 - 3
cium salts	272-486-4	H413	
Calcium alkaryl sulphonate**	Not Assigned	Skin Sens. 1B; H317	0,1 - 0,9
Calcium salicylate **	Not Assigned	Skin Sens. 1B; H317	0,1 - 0,9
	NUL ASSIGNED		0,1-0,9

Remarks

** polymer exempt.

For explanation of abbreviations see section 16.

:

SECTION 4: First aid measures

4.1 Description of first aid measures

Protection of first-aiders	:	When administering first aid, ensure that you are wearing the appropriate personal protective equipment according to the incident, injury and surroundings.
If inhaled	:	No treatment necessary under normal conditions of use. If symptoms persist, obtain medical advice.
In case of skin contact	:	Remove contaminated clothing. Flush exposed area with wa- ter and follow by washing with soap if available. If persistent irritation occurs, obtain medical attention.
In case of eye contact	:	Flush eye with copious quantities of water. Remove contact lenses, if present and easy to do. Continue rinsing. If persistent irritation occurs, obtain medical attention.
If swallowed	:	In general no treatment is necessary unless large quantities are swallowed, however, get medical advice.

According to EC No 1907/2006 as amended as at the date of this SDS

Shell Mysella S6 N 40

Version 1.5	Revision Date: 05.07.2023		DS Number: 0010032864	Date of last issue: 21.09.2022 Print Date 06.07.2023	
	important symptoms a ptoms	nd e :	Oil acne/folliculiti of black pustules	e and delayed s signs and symptoms may include formation and spots on the skin of exposed areas. sult in nausea, vomiting and/or diarrhoea.	
4.3 Indica	ation of any immediate	me	dical attention an	d special treatment needed	
Trea	tment	:	Notes to doctor/physician: Treat symptomatically.		
SECTIO	N 5: Firefighting mea	sur	es		
5.1 Extin	guishing media				
	able extinguishing media	:		ay or fog. Dry chemical powder, carbon diox- n may be used for small fires only.	
Unsu medi	uitable extinguishing ia	:	Do not use water in a jet.		
5.2 Speci	ial hazards arising from	n the	e substance or mi	xture	
Spec fighti	sific hazards during fire- ng	:	 Hazardous combustion products may include: A complex mixture of airborne solid and liquid particulates ar gases (smoke). Carbon monoxide may be evolved if incomplete combustion occurs. Unidentified organic and inorganic compounds. 		
5.3 Advic	e for firefighters				
•	sial protective equipment refighters	:	Proper protective equipment including chemical resistant gloves are to be worn; chemical resistant suit is indicated if large contact with spilled product is expected. Self-Contained Breathing Apparatus must be worn when approaching a fire in a confined space. Select fire fighter's clothing approved to relevant Standards (e.g. Europe: EN469).		
Spec ods	cific extinguishing meth-	:		g measures that are appropriate to local cir- the surrounding environment.	

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency pro	ocedures
--	----------

Personal precautions	:	6.1.1 For non emergency personnel:
		Avoid contact with skin and eyes.
		6.1.2 For emergency responders:
		Avoid contact with skin and eyes.

According to EC No 1907/2006 as amended as at the date of this SDS

Shell Mysella S6 N 40

Version 1.5	Revision Date: 05.07.2023	SDS Number: 800010032864	Date of last issue: 21.09.2022 Print Date 06.07.2023
6.2 Enviror	mental precautions		
Environmental precautions		nation. Prevent f	containment to avoid environmental contami- rom spreading or entering drains, ditches or and, earth, or other appropriate barriers.
		Local authorities cannot be contai	should be advised if significant spillages ned.
6.3 Method	s and material for co	ntainment and clean	ing up
Method	ds for cleaning up	Prevent from spr or other containn Reclaim liquid di Soak up residue	bilt. Avoid accidents, clean up immediately. eading by making a barrier with sand, earth nent material. rectly or in an absorbent. with an absorbent such as clay, sand or other and dispose of properly.

6.4 Reference to other sections

For guidance on selection of personal protective equipment see Section 8 of this Safety Data Sheet., For guidance on disposal of spilled material see Section 13 of this Safety Data Sheet.

SECTION 7: Handling and storage

7.1 Precautions for safe handling Technical measures	Use local exhaust ventilation if there is risk of inhalation of
rechnical measures	vapours, mists or aerosols.
	Use the information in this data sheet as input to a risk as- sessment of local circumstances to help determine appropri- ate controls for safe handling, storage and disposal of this material.
Advice on safe handling :	Avoid prolonged or repeated contact with skin. Avoid inhaling vapour and/or mists. When handling product in drums, safety footwear should be worn and proper handling equipment should be used. Properly dispose of any contaminated rags or cleaning mate- rials in order to prevent fires.
Product Transfer :	Proper grounding and bonding procedures should be used during all bulk transfer operations to avoid static accumulation.
7.2 Conditions for safe storage, inc	luding any incompatibilities

Further information on stor- age stability	:	Keep container tightly closed and in a cool, well-ventilated place. Use properly labeled and closable containers. Store at ambient temperature.
		Refer to section 15 for any additional specific legislation covering the packaging and storage of this product.

According to EC No 1907/2006 as amended as at the date of this SDS

Shell Mysella S6 N 40

Version 1.5	Revision Date: 05.07.2023	SDS Number: 800010032864	Date of last issue: 21.09.2022 Print Date 06.07.2023
Packa	aging material		ial: For containers or container linings, use mild ensity polyethylene. terial: PVC.
Container Advice			containers should not be exposed to high tem- ause of possible risk of distortion.
•	ic end use(s) fic use(s)	: Not applicable	

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form of exposure)	Control parameters	Basis
Oil mist, mineral	Not As- signed	TWA (inhalable fraction)	5 mg/m3	IT OEL
Oil mist, mineral		TWA (inhalable fraction)	5 mg/m3	US. ACGIH Threshold Limit Values

Biological occupational exposure limits

8.2 Exposure controls

Engineering measures

The level of protection and types of controls necessary will vary depending upon potential exposure conditions. Select controls based on a risk assessment of local circumstances. Appropriate measures include:

Adequate ventilation to control airborne concentrations.

Where material is heated, sprayed or mist formed, there is greater potential for airborne concentrations to be generated.

General Information:

Define procedures for safe handling and maintenance of controls.

Educate and train workers in the hazards and control measures relevant to normal activities associated with this product.

Ensure appropriate selection, testing and maintenance of equipment used to control exposure, e.g. personal protective equipment, local exhaust ventilation.

Drain down system prior to equipment break-in or maintenance.

Retain drain downs in sealed storage pending disposal or subsequent recycle.

Always observe good personal hygiene measures, such as washing hands after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Discard contaminated clothing and footwear that cannot be cleaned. Practice good housekeeping.

Personal protective equipment

The provided information is made in consideration of the PPE directive (Council Directive

According to EC No 1907/2006 as amended as at the date of this SDS

Shell Mysella S6 N 40

Version	Revision Date:	SDS Number:	Date of last issue: 21.09.2022
1.5	05.07.2023	800010032864	Print Date 06.07.2023
89/68	86/EEC) and the CEN	European Committee	for Standardisation (CEN) standards.

Personal protective equipment (PPE) should meet recommended national standards. Check with PPE suppliers.

=	
Eye protection	: If material is handled such that it could be splashed into eyes, protective eyewear is recommended. Approved to EU Standard EN166.
Hand protection	
Remarks	: Where hand contact with the product may occur the use of gloves approved to relevant standards (e.g. Europe: EN374, US: F739) made from the following materials may provide suitable chemical protection. PVC, neoprene or nitrile rubber gloves Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Personal hygiene is a key element of effective hand care. Gloves must only be worn on clean hands. After using gloves, hands should be washed and dried thoroughly. Application of a non-perfumed moisturizer is recommended. For continuous contact we recommend gloves with break-through time of more than 240 minutes with preference for > 480 minutes where suitable gloves can be identified. For short-term/splash protection we recommend the same but recognize that suitable gloves offering this level of protection may not be available and in this case a lower breakthrough time maybe acceptable so long as appropriate maintenance and replacement regimes are followed. Glove thickness is not a good predictor of glove resistance to a chemical as it is dependent on the exact composition of the glove material. Glove thickness should be typically greater than 0.35 mm depending on the glove make and model.
Skin and body protection	 Skin protection is not ordinarily required beyond standard work clothes. It is good practice to wear chemical resistant gloves.
Respiratory protection	 No respiratory protection is ordinarily required under normal conditions of use. In accordance with good industrial hygiene practices, precautions should be taken to avoid breathing of material. If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, select respiratory protection equipment suitable for the specific conditions of use and meeting relevant legislation. Check with respiratory protective equipment suppliers. Where air-filtering respirators are suitable, select an appropriate combination of mask and filter. Select a filter suitable for combined particulate/organic gases

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII)	:	Not applicable
REACH - List of substances subject to authorisation (Annex XIV)	:	Product is not subject to Authorisa- tion under REACH.
Volatile organic compounds : Volatile organic comp	oun	ds (VOC) content: 0 %

Other regulations:

The regulatory information is not intended to be comprehensive. Other regulations may apply to this material.

Safeguard of health and safety in the workplaces refer to D.Lgs.81/2008 and subsequent amendments.

For waste disposal refer to D.Lgs.152/2006 and subsequent amendments.

REACH	:	All components listed or polymer exempt.
-------	---	--

TSCA

: All components listed.

15.2 Chemical safety assessment

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

SECTION 16: Other information

Full text of H-Statements				
H317	:	May cause an allergic skin reaction.		
H413	:	May cause long lasting harmful effects to aquatic life.		
Full text of other abbreviations				
Aquatic Chronic	:	Long-term (chronic) aquatic hazard		
Skin Sens.	:	Skin sensitisation		
IT OEL	:	Italy. List of indicative limit values for professional exposure to chemical agents.		
IT OEL / TWA	:	Time weighted average

tion (EC) No 1272/2008; CMR - Carcinogen, Mutagen or Reproductive Toxicant; DIN - Standard of the German Institute for Standardisation; DSL - Domestic Substances List (Canada); ECHA -European Chemicals Agency; EC-Number - European Community number; ECx - Concentration associated with x% response; ELx - Loading rate associated with x% response; EmS - Emergency Schedule; ENCS - Existing and New Chemical Substances (Japan); ErCx - Concentration associated with x% growth rate response; GHS - Globally Harmonized System; GLP - Good Laboratory Practice; IARC - International Agency for Research on Cancer; IATA - International Air Transport Association; IBC - International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk; IC50 - Half maximal inhibitory concentration; ICAO - International Civil Aviation Organization; IECSC - Inventory of Existing Chemical Substances in China; IMDG - International Maritime Dangerous Goods; IMO - International Maritime Organization; ISHL - Industrial Safety and Health Law (Japan); ISO - International Organisation for Standardization; KECI - Korea Existing Chemicals Inventory; LC50 - Lethal Concentration to 50 % of a test population; LD50 - Lethal Dose to 50% of a test population (Median Lethal Dose); MARPOL - International Convention for the Prevention of Pollution from Ships; n.o.s. - Not Otherwise Specified; NO(A)EC - No Observed (Adverse) Effect Concentration; NO(A)EL - No Observed (Adverse) Effect Level; NOELR - No Observable Effect Loading Rate; NZIoC - New Zealand Inventory of Chemicals; OECD - Organization for Economic Co-operation and Development; OPPTS - Office of Chemical Safety and Pollution Prevention; PBT - Persistent, Bioaccumulative and Toxic substance; PICCS - Philippines Inventory of Chemicals and Chemical Substances; (Q)SAR - (Quantitative) Structure Activity Relationship; REACH - Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals; RID - Regulations concerning the International Carriage of Dangerous Goods by Rail; SADT - Self-Accelerating Decomposition Temperature; SDS - Safety Data Sheet; SVHC - Substance of Very High Concern; TCSI - Taiwan Chemical Substance Inventory; TECI -Thailand Existing Chemicals Inventory; TRGS - Technical Rule for Hazardous Substances; TSCA - Toxic Substances Control Act (United States); UN - United Nations; vPvB - Very Persistent and Very Bioaccumulative

Further information

Training advice	:	Provide adequate information, instruction and training for operators.
Other information	:	No Exposure Scenario annex is attached to this safety data sheet. It is a non-classified mixture containing hazardous sub- stances as detailed in Section 3; relevant information from Exposure Scenarios for the hazardous substances contained have been integrated into the core sections 1-16 of this SDS.
		A vertical bar () in the left margin indicates an amendment from the previous version.
Sources of key data used to compile the Safety Data Sheet	:	The quoted data are from, but not limited to, one or more sources of information (e.g. toxicological data from Shell Health Services, material suppliers' data, CONCAWE, EU IUCLID date base, EC 1272 regulation, etc).

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific
